III. DETAILED ACTION

Claims 1-18 are presented for examination.

Allowable Subject Matter

Claims 1-18 are allowed over the prior art of record.

The following is a statement of reasons for the indication of allowable subject matter:

Applicant's particular mirroring data between a plurality of sites which includes establishing a replication relationship between the plurality of sites including a first site and a second site, replicating at least some changes made at any site of the plurality of sites at each other site of the plurality of sites, a first server associated with the first site requesting performance of a write operation in response to the request, performing the write operation at the first site, and sending a message to request that the write operation be mirrored at the second site, the first server receiving an indication that the write operation could not be successfully performed at the second site and in response to the indication, the first server initiating a membership voting operation to determine which of the first server and a second server associated with the second site should be removed from the replication membership, and if it is determined that the second server associated with the

Art Unit: 2175

second site should be removed from the replication membership, then the first server sending a message to indicate that write operations are no longer to be replicated at the second site in combination with the other limitations of the claims, was not disclosed by, would not have been obvious over, nor would have been fairly suggested by the prior art of record.

The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.

The closest prior art fails to anticipate or render Applicant's limitations above obvious.

Comments

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to

Art Unit: 2175

avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As allowable subject matter has been indicated, Applicant's response must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP section 707.07(a).

Prior Art Made of Record

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
